Millerplex®

GENERAL INFORMATION

MILLERPLEX® is a proprietary liquid fertilizer formulation containing macro-nutrients and sea plant extracts from seaweed (*Ascophyllum nodosum*) for increasing plant biomass and/or yield for crops as indicated under directions for use. Foliar fertilization is intended as a supplement to a regular fertilization programme and will not, by itself provide all the nutrients normally required by agricultural crops.

PRECAUTIONARY STATEMENTS

- Do not handle until all safety precautions have been read and understood.
- Keep out of reach of children, uninformed persons and animals.
- Wash thoroughly after handling.
- Store in the original container tightly closed, in a dry place.
- Use this product in accordance with good agronomic practices, which include utilizing proven spray equipment set for proper coverage.
- Do not make applications when temperatures are too hot, as crop damage may occur.
- Applications should be made at temperature levels and when other environmental conditions in your area are such that your experience indicates the application will be compatible and will accomplish the desired result.
- Rinse empty container three times with a volume of water equal to a minimum of 30 % of that of the container and add rinsings to the contents of the spray tank before disposing of the container. Destroy the empty container by perforation and dispose of it in a safe manner. Do not use for any other purpose. The triple-rinsed container may be sent to an approved recycling facility for processing.
