

Safety Data Sheet

OSHA HazCom Standard 29 CFR 1910.1200(g) and GHS Rev 03
Canadian Workplace Hazardous Material Information System (WHMIS) 2015
Mexico NOM-018-STPS-2000; NOM-018-STPS-2015
GHS (Globally Harmonized System)

1. Product and company identification

Product identifier

Product Name	Mist Control®
Pure substance/mixture	Non-hazardous mixture

Relevant identified uses of the substance or mixture and uses advised against

Recommended use	Agricultural Adjuvant
Uses advised against	None known, only use as directed

Details of registration holder and distributor:

Hygrotech Properties (Pty) Ltd, 1 Gerard Braak Street, Pyramid, Pretoria, 0120

Emergency Telephone numbers (local):

Griffon Poison Information Centre: 082 446 8946
Hygrotech Head Office: 012 545 8000 (o/h)

Details of supplier of product:

Miller Chemical & Fertilizer, LLC., 120 Radio Road, Hanover, Pennsylvania, 17331, USA.

Emergency Telephone numbers (international):

CHEMTREC: +1 800 424 9300 or International +1 703 527 3887

2. Hazard(s) identification

Classification of the substance or mixture

OSHA Regulatory Status: This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

GHS Classification

Hazard class	None
Category	None
Hazard statement number	None

Label Elements

Pictograms	None
Signal Word	None
Hazard Statements	None

Precautionary Statements

Additional information	Not applicable
Hazards not otherwise classified (HNOC)	None known

3. Composition/information on ingredients

Pure substance/mixture Non-hazardous Mixture

Hazardous Component – Chemical Name	CAS No.	Weight - %	TSCA: United States	Canada (DSL)	Mexico	WHMIS	OSHA Regulatory Status
Non-hazardous	-	100	A	Y	N	-	Not regulated

Legend

Y: Complies ; A: Active ; - / N: Exempt / Not Listed

Additional information: This product is considered non-ionic.

4. First Aid measures**Description of First Aid measures**

General advice	When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention.
Skin contact	Wash off immediately with plenty of water for at least 15 minutes. Take off contaminated clothing and wash before reuse. Get medical attention.
Ingestion	DO NOT INDUCE VOMITING. If vomiting occurs naturally, reduce the risk of aspiration by leaning their body forward. Clean mouth with water and afterwards drink plenty of water. Never give anything by mouth to an unconscious person. Get medical attention.
Inhalation	Remove to fresh air. If breathing has stopped, apply artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

Most important symptoms/effects, acute and delayed

None known.

Indication of any immediate medical attention and special treatment needed

Treatment should be symptomatic and supportive. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination.

5. Fire-fighting measures

Extinguishing media	Suitable Extinguishing Media: Water spray (fog). Unsuitable Extinguishing Media: None known.
Specific hazards arising from the chemical including thermal decomposition products	None known.
Special protective equipment for firefighters	None known.
Fire-fighting measures	Water mist may be used to cool closed containers. No special fire protection measures are necessary. Standard procedure for chemical fires.

6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures	Keep unauthorized personnel away. In case of fire: Stop leak if safe to do so. For non-emergency personnel: Keep unauthorized personnel away. For emergency responders: Keep unauthorized personnel away. Use personal protection recommended in Section 8.
Environmental precautions	Avoid runoff to waterways and sewers.
Containment and clean-up	To clean up residue, flush sparingly with water or use an absorbent. It may be necessary to remove contaminated soil. If acidity (low pH) is a problem, neutralize with hydrated lime, soda ash, or sodium bicarbonate. If alkalinity (high pH) is a problem, neutralize with dilute acetic acid or dilute hydrochloric (muriatic) acid.
Reference to other SDS sections	See Section 8 for exposure controls and personal protection. See Section 13 for additional waste treatment information.

7. Handling and storage

Precautions for safe handling	Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Ensure adequate ventilation. Wear appropriate personal protective clothing to prevent skin contact.
Conditions for safe storage, including any incompatibilities	Keep container closed when not in use. Store away from incompatible materials. Keep out of reach of children.

8. Exposure controls/personal protection

Control parameters	Occupational exposure limits: No information available Biological limit values: No information available
Exposure controls: Appropriate engineering measures	Provide a good standard of controlled ventilation (5 to 10 air changes per hour). Use exhaust ventilation to keep airborne concentrations below exposure limits. In case of insufficient ventilation, wear suitable respiratory equipment.
Individual protection measures: Personal protective equipment	Eye/Face: Wear safety glasses with side shields (or goggles). Skin and body: Wear suitable protective clothing. Hand: For operations where prolonged or repeated skin contact may occur, impervious gloves should be worn. Respiratory: In case of inadequate ventilation wear respirators.
Environmental exposure controls	Dispose of in accordance with local regulation.

9. Physical and chemical properties

Phase	Liquid
Colour	Lightly turbid. Clear to light greyish.
Odour	Moderate
pH (1%)	5.5 - 6.5 @ 20 °C
Boiling point / Boiling range	≥ 212 °F (100 °C)
Freezing point	< 32 °F (0 °C)
Flash Point (°C)	Not determined
Evaporation rate	Not determined
Flammability (solid, gas)	Not determined
Vapour pressure	Not determined
Vapour density	Not determined (Air = 1)
Density	8.70 - 8.80 lbs/gal @ 68 °F (1.04 - 1.05 g/ml @ 20 °C)
Water solubility	Soluble
Specific gravity	1.04 – 1.06 g/ml @ 68 °F (20 °C)
Percent volatile	Not determined

10. Stability and reactivity

Reactivity	Stable under normal conditions.
Chemical stability	Stable under normal conditions.
Possibility of hazardous reactions	No specific hazard known.
Conditions to avoid	Strong oxidizing agents.
Incompatible materials	None known.
Hazardous decomposition products	Carbon oxides.

11. Toxicological information

General Information Users are advised to consider national Occupational Exposure Limits or other equivalent values.

Information on Likely Routes of Exposure

Inhalation Avoid inhalation of the product.

Skin May cause irritation.

Eyes May cause irritation.

Ingestion None known.

Information on toxicological effects

Acute Toxicity No data available.

Skin Corrosion/Irritation No data available.

Skin Sensitization No data available.

Mutagenicity Not mutagenic.

Carcinogenicity Not listed as a carcinogen.

12. Ecological information

Ecotoxicity This product is a spray adjuvant. Large spills could possibly damage vegetation. Contamination of waterways could possibly cause fish kills. Prevent spilled substance from entering water supplies or water courses.

Persistence and degradability No data available.

Bioaccumulative potential No data available.

Mobility in soil No data available.

Results of PBT and vPvB assessment No data available.

Other adverse effects No information available.

13. Disposal information

Waste treatment and disposal methods	If uncontaminated, recover and reuse as product. If contaminated with other materials, the nature and extent of contamination may require use of specialized disposal methods. Disposal should be in accordance with applicable regional, national, and local laws and regulations.
Disposal of packaging	Product residue may remain in empty containers. Rinse empty container 3 times with a quarter volume of water and add to the spray tank. Puncture and flatten empty containers and offer for recycling to a CropLife SA approved recycler. Do not burn or bury empty containers.

14. Transport information

Mode of Transportation (Road, Water, Air, Rail)

TDG - Canada Not regulated
DOT Not regulated
IATA Not regulated
IMDG/IMO Not regulated
ICAO Not regulated

UN number None

UN proper shipping name None

Transport hazard class(es) None

Packing group None

Environmental hazards No

Special precautions for user Not applicable

15. Regulatory information

Global Inventories

Pure substance/mixture Non-hazardous Mixture

Chemical Name	CAS Number	Canada (DSL)	Mexico	TSCA: United States
Non-Hazardous	-	Y	N	A

Legend
